+ REAL LIFE (VIDEO CLIP)	

real life

Real life is
the essence of
our real life
beneath the wings of time

Real life is
the essence of
our real life
that will always remain

When I was young
I had a dream of
a world where
I would be like
a real life

When I get lost in thought
I see a world
in my mind
where I can be
like a real life

When I was young
I had a dream of
a world where
I would be like
a real life

When I was young
I had a dream of
a world where
I would be like
a real life
